## About me

With 6 years of diverse Frontend Development experience and a degree in Computer Science, I have a strong programming foundation and the versatility to adapt quickly to new tools and challenges. My passion is creating robust, visually appealing, and impactful web applications that align with both user needs and business goals.

I'm excited to bring my skills and enthusiasm as a Frontend React Developer to your team and contribute to your product's success!

## Skills

JavaScript (ES6+)/ TypeScript  
React/ Next.js/ Redux  
HTML5/ CSS3  
Bootstrap/ Tailwind CSS  
Node.js/ NPM/ PNMP  
Webpack/ Babel/ Vite  
Git/ GitHub/ GitLab  
GitHub Pages/ Heroku/ Netlify  
Chrome Dev Tools/ Jest  
MongoDB  
SCRUM/ Kanban  
Figma/ Adobe Photoshop

## Experience

**Frontend Developer**  
Freelance | Tbilisi, Georgia

Jul 2023 - Present

Specializing in building modern React applications and responsive interfaces for diverse clients, delivering high-performance solutions with a focus on clean code and user experience.

- Led development of responsive React applications with TypeScript and Next.js, focusing on performance optimization and mobile-first design.
- Built scalable frontend architecture using Redux state management and custom React hooks, reducing codebase complexity.
- Implemented comprehensive UI component libraries with Tailwind CSS and established unit testing practices using Jest.
- Collaborated with design teams using Figma to deliver pixel-perfect interfaces while maintaining clean, maintainable code standards.

**Technology stack:** React, TypeScript, JavaScript, Next.js, Tailwind CSS, Bootstrap, Redux, Webpack, Babel, Figma, Jest, Git/GitHub/GitLab

## Education

**Bachelor's degree - Computer Science**  
D. Mendeleev State University  
Sep 2017- Jul 2021

**React Development Course**  
Scrimba  
Apr 2024 - Jun 2024

**Modern JavaScript Full Course**  
SuperSimpleDev  
Oct 2022 - Feb 2023

**React Frontend Developer**  
Y LAB · Internship | Tbilisi, Georgia

Aug 2024 - Nov 2024

Y\_LAB is a digital transformation company specializing in fintech, e-commerce, and enterprise solutions. Focused on implementing advanced IT projects and business process automation across multiple industries including logistics, telecom, and blockchain.

- Built responsive React applications using TypeScript during intensive internship program, focusing on modern development practices.
- Developed feature-rich components implementing Redux state management and REST API integration in training projects.
- Created UI component library with Tailwind CSS following design system principles and best practices.
- Applied modern frontend tooling including Webpack and Babel while learning unit testing and version control workflows in team environment.

**Technology stack:** React, TypeScript, JavaScript, HTML, CSS, Webpack, Babel, REST APIs, Redux, Figma, Git/GitHub

# Academic Publications

Design and Development of Backend Application for University Schedule Formation – Ministry of Science and Higher Education of the Russian Federation, RCTU (Oct 1, 2021)

# Honors & awards

**Microsoft AI for Good Hackathon – Winner in the 'AI for Accessibility' Category**  
Issued by Microsoft · Jul 2019

**Microsoft Imagine Cup – Winner of the People's Choice Award**  
Issued by Microsoft · Apr 2018

# Languages

English - C1 (fluent)  
Ukrainian - native  
Russian - native

# Hobbies

Team Sports & Athletics  
Competitive Programming  
Strategic Board Games  
Multilingual Literature

**Frontend Web Developer** Mar 2023 - Jun 2023  
Ittransition Group · Internship | Batumi, Georgia

Ittransition is a global software development company delivering enterprise-grade solutions with deep technological expertise and market-specific knowledge. Specializes in creating sophisticated corporate and consumer applications tailored to specific business contexts.

- Developed dynamic, responsive web interfaces using HTML5, CSS3, JavaScript ES6, and Bootstrap to deliver seamless user experiences across devices.
- Collaborated effectively using Git and GitHub, integrating Node.js and MongoDB to support scalable, full-stack solutions.

**Technology stack:** JavaScript, HTML, CSS, Node.js, Bootstrap, Babel, React, REST APIs, Mongo DB, Git&GitHub, Heroku

**Professional development** Jul 2021 - Mar 2023  
Career Break

Emigrated from Russia to Georgia while evolving from HTML/CSS specialist to modern frontend developer.

Key accomplishments:

- Advanced from static webpage development to building dynamic web applications using JavaScript, modern frameworks, and state management
- Deepened technical expertise in frontend architecture, component-based development, and API integration
- Strengthened understanding of web fundamentals including browser rendering, performance optimization, and security best practices

This intensive learning period transformed my capabilities from markup-focused development to creating sophisticated interactive web applications, backed by solid understanding of modern frontend technologies and principles.

**HTML/CSS Developer** Feb 2020 - Jul 2021  
Scientific-Production Center MAX · Contract | Moscow, Russia

Scientific-Production Center MAX is a leading developer and integrator of secure cloud computing infrastructure solutions. Provides scalable hardware-software complexes for virtual environments, focusing on protected data storage and deployment of intelligent workspaces for office and development activities.

- Engineered dynamic single-page applications (SPAs) using advanced HTML/CSS techniques to deliver seamless, user-friendly interfaces.
- Collaborated with cross-functional teams to align design and functionality with project goals.

**Technology stack:** HTML, CSS, JavaScript, Node.js, Git&GitHub, Responsive Web Design

**Microsoft Student Partner** Apr 2019 - Mar 2020  
Microsoft · Apprenticeship | Moscow, Russia

Microsoft is a global technology leader pioneering personal computing software, cloud services, and enterprise solutions since 1975. World's largest software manufacturer, driving innovation across cloud computing, AI, and productivity tools while shaping the future of digital transformation.

- Built diverse applications including websites. Specialized in full-stack development using JavaScript, React, Python, and Node.js.
- Mastered new Microsoft technologies quickly. Applied documentation and industry best practices effectively.
- Contributed to tech lectures, coding challenges, and unit testing to enhance technical skills.

**Technology stack:** Web Development, HTML, CSS, JavaScript, React, TypeScript, JSON, Responsive Web Design, Node.js, MongoDB, SQL, Webpack, Babel, Python, Django, REST APIs, C++, C#, Visual Studio, Git&GitHub
